

STATEMENT OF WORK
Dike (356)
Wyoming

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables:

1. Design Surveys
 - a. Centerline profile and needed cross-sections.
 - b. Necessary topographic information
 - c. Profile and cross section of channel where required.
 - d. Material (soil) available.
2. Design documentation that will demonstrate that the criteria in NRCS practice standard have been met and are compatible with other planned and applied practices.
 - a. Practice purpose(s) as identified in the conservation plan
 - b. List of required permits to be obtained by the client
 - c. Compliance with NRCS national and state utility safety policy (NEM Part 503-Safety, Subpart A - Engineering Activities Affecting Utilities 503.00 through 503.06)
 - d. Practice standard criteria related computations and analyses to develop plans and specifications including but not limited to:
 - i. Geology and Soil Mechanics (NEM Subpart 531a)
 - ii. Hydrology/Hydraulics
 - iii. Cross section and design height.
 - iv. Structural including dike classification
 - v. Slope protection and protection from livestock.
 - vi. Required conduits or structures
 - vii. Quantity computations.
 - viii. Vegetation
 - ix. Slope stability
 - x. Environmental Considerations
 - xi. Safety Considerations (NEM Part 503-Safety, Subpart A, 503.10 through 503.12)
3. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits...
 - a. Overall plan.
 - b. Profile and representative cross-section
 - c. Conduit or structure location and alignment.
 - d. Location map.
 - e. Construction materials.
 - f. Compaction required.
4. Design Report and Inspection Plan as appropriate (NEM Part 511, Subpart B Documentation, 511.11 and Part 512, Subpart D Quality Assurance Activities, 512.30 through 512.32).
5. Operation and Maintenance Plan (National Operation and Maintenance Manual 500.70 and 500.40 through 500.42)
6. Certification that the design meets practice standard criteria and comply with applicable laws and regulations (NEM Subpart A, 505.03 (a) (3)).
7. Design modifications during installation as required.

INSTALLATION

Deliverables

1. Pre Installation conference with client and contractor.
2. Verification that client has obtained required permits.
3. Staking and layout according to plans and specifications including applicable layout notes.
 - a. Centerline stakes.
 - b. Slope stakes with offset stakes.
 - c. Grade and alignment for conduits and structures.
4. Installation inspection (according to inspection plan as appropriate).

STATEMENT OF WORK
Dike (356)
Wyoming

- a. Actual materials used (Part 512, Subchapter D Quality Assurance Activities, 512.33)
 - b. Inspection records
5. Facilitate and implement required design modifications with client and original designer
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
7. Certification that the installation process and materials meets design and permit requirements.

CHECK OUT

Deliverables

1. As-Built documentation.
 - a. Extent of practice units applied
 - b. Drawings
 - c. Profile of dike (maximum interval of 100 feet).
 - d. Cross-sections (maximum interval of 500 feet).
 - e. Elevations and alignment of conduits and structures.
 - f. Materials.
 - g. Slope protection
 - h. Compaction achieved.
 - i. Final quantities
2. Certification that the installation meets NRCS standards and specifications and is in compliance with permits (NEM Subpart A, 505.03 (c) (1)).
3. Progress reporting.
